Cloud or On-Premise

We give you the power of choice with the unique ability to switch between platforms anytime. You can even host and own Experlogix yourself and connect to CRM Online if needed.

Harness OOTB Sales

Complete integration with Dynamics 365 Opportunities, Quotes, Orders and Service Contracts is available the moment you install Experlogix. Access to the Product Catalog and Price Lists is also at the ready, as is integration with Custom Entities. It's all available OOTB (out-of-the-box).

Portal Access

We add powerful quote and order capabilities to ADX Studio, Microsoft's integrated portal solution for Dynamics 365. Empower your resellers, distributors, and external reps to create their own quotes with Experlogix.

Trigger CRM Workflows

Experlogix can fire Dynamics 365 workflows to route for discount approvals, engineering change requests and more.

Read from & Write to Dynamics

Let's say you need Experlogix to calculate a quote's gross profit and send that back to Dynamics for reporting. With clicks (rather than coding), it's done. What if you want Experlogix to recognize the account's country and only display products in that region to your rep? Get it done in minutes!

Dynamics Updates

If you're ready to take advantage of a new Dynamics release, rest assured we support the new version – there's never a delay.

We Respect the Dynamics UI

No matter which version of Dynamics you use, Experlogix matches the look of each Dynamics release. Why is this important? It provides a natural transition from Dynamics to CPQ for your users, shortens learning curves and increases user adoption. Wish we didn't match Dynamics 365? We've got other skins to choose from or you can create your own.

Offline

With our proven offline technology, your reps in remote locations can still build quotes and orders, regardless of complexity.

- Eliminate quote errors
- Speed quote-to-order times
- Trigger discount approvals
- Calculate anything
- Create bill-of-materials
- Multi-currency & language support
- Works with Dynamics 365 for Sales and Dynamics CRM versions 2011, 2013, 2015, 2016
- Fast set-up, easy maintenance
